

Assistant Director for Operations

8 June 1956

Acting Chief, FBID

Progress Report for May 1956

OPERATIONS

1. A staff study recommending DD/I approval for a survey of reception of North and West Africa was submitted. It is planned to commence the survey at Tangier in July, and to investigate other sites. FDD will provide an Arabic linguist to accompany the survey team.

2. In view of the Deputy Director's interest in monitoring from the Gold Coast, British views on the feasibility of establishing a small monitoring station at Accra have been solicited through the BBC. It is likely that reception will be surveyed at Accra upon completion of the North African tests.

3. The Deputy Director approved FBID's recommendation that the Saigon Bureau not be closed as previously recommended by the Inspector General. This decision was based on positive expressions by major consumers in Washington and in Saigon of need for Saigon Bureau material.

4. FBID interest in a potential Latin American cruising post has been narrowed to San Jose, Bogota, Quito and Lima. The present plan is to make an initial survey at San Jose and to continue to the more distant points only if San Jose proves unsatisfactory. Discussions will be held with WH Division with this in view.

5. With the impending abolition of FBIS field bureau analyst positions as recommended by the Inspector General a program of thorough orientation by Radio Propaganda Branch has been initiated for editors, particularly chief and senior editors being assigned to the field. The orientation course includes practical exercises on problems of current analysis.

6. In implementation of another Inspector General recommendation the eight different series of FBIS Radio Propaganda Reports have been reduced to two, the Current Developments and the Research Series. Reports requiring a long period of research and those coordinated with other intelligence offices will normally be issued with the RS designation. One of each series was issued during May, a description of Moscow's treatment of the Bulganin-Khrushchev visit to Britain and an inquiry into Khrushchev's position with respect to the deglorification of Stalin.

SECRET

SECRET

7. Procedures for coordinating the press scrutiny of the Austrian Bureau with the output of the London and Mediterranean Bureaus have been set up on a trial basis in Vienna. Vienna will supply headquarters with summary descriptions of first priority items; and further processing will be at headquarters request based on material received from other Bureaus. Vienna will at its own discretion file any items deemed especially newsworthy or significant where loss of time would impair their value.

8. The Assistant Chief, Mediterranean Bureau, will make a recruiting trip in June to Cairo, Khartoum and other East African points for Swahili, Amharic, Somali, Tigrinya and Hausa linguists in combination with Arabic.

9. The backlog of unprocessed FBIS economic abstracts was reduced to an acceptable size during the month. Management Staff continued to survey methods for improving FBIS economic abstract card processing.

10. FBID is receiving press scrutiny reports directly from USIA overseas missions. The USIA material is scrutinized for possible inclusion in reaction reports on topics of current interest which are published in FBID's daily "Pink Sheet" of significant foreign radio reportage. At the request of consumers FBID published during May reaction reports on the following subjects: H-bomb tests, announcement on Soviet reduction in forces, Sukarno's visit to Washington and Egypt's recognition of Communist China.

11. The special FBIS wire service to Ambassador Johnson in Geneva continued throughout May.

50X1-HUM

12. The DD/I visited the Austrian, German and London bureaus during the month and also conferred with the Head, EBC Monitoring Service in Caversham.

14. A foreign national cruising monitor entered on duty at the Hokkaido Bureau during the month. He will perform routine cruising and also will provide regular contributions in the form of Russian code observations to the Radio Stations Branch, OCR Special Register.

SECRET

SECRET

FACILITIES

15. Construction:

a. The final phase of Okinawa housing construction, under project DD/I 158-56 is 3 per cent complete.

b. Construction of FBIS housing at Chitose Air Force Base, Hokkaido, under project DD/I 168-56 had not started as of 31 May. Materials and equipment were assembled and completion is still scheduled for mid-July, however.

c. Mediterranean Bureau is modifying and modernizing its monitoring booths to conform to general FBIS standards.

d. Rehabilitation of the Okinawa Bureau antennae by the Army Signal Corps is in progress and is about 50 per cent complete.

e. Clearing and grading of the East Coast Bureau antenna field by the National Capitol Parks Service is in progress.

f. The construction contractor at West Coast Bureau is being held responsible for repair or replacement of faulty air conditioning equipment.

16. Equipment:

a. Equipment for code monitoring and cruising at the Hokkaido Bureau was requisitioned.

b. A contract for procurement of two Morse Code-teletype converters for the West Coast Bureau is being prepared. Delivery is expected in early 1957.

17. At Department of the Army request FBIS withdrew its proviso that funds previously turned over to Okinawa Engineer District for increased rental of Okinawa land be withheld from the owners pending resolution of the question of out-leasing or pole rights. There is no prospect of reconsideration of rental policy by USCAR in fiscal year 1956 and FBID, therefore, had no choice but to withdraw this limitation. A solution is expected in fiscal year 1957.

SECRET

SECRET**ADMINISTRATION**

18. An FBIS regulation establishing an FBIS Career Service Board was authenticated by the Assistant Director for Operations on 31 May 1956. The Board will review the application of Agency personnel management policies within FBIS, will recommend appropriate action on individual cases brought to its attention, and will report to the OO/CSB in such detail and as often as required.

19. The FBIS operating budget for Fiscal Year 1957 and Preliminary Estimates for Fiscal Year 1958 were submitted to the Assistant Director for Operations.

20. Personnel:

a. [] Chief, Radio Propaganda Branch, FBID, will report to the Office of National Estimates on 15 June on detail from FBID.

50X1

b. The Assistant Chief, Radio Propaganda Branch, FBID, made a recruiting trip to Columbia University which yielded several promising candidates for analyst positions. Recruiting for editorial candidates through normal channels also continued. Shortages in these categories present a serious problem.

c. During the month four employees entered on duty with FBID, two transferred to other components and two were separated. Classified on-duty strength as of 31 May was [] six under ceiling.
